

Terms and Conditions of Use of the IAEG™ Aerospace and Defense Declarable Substances List
("AD-DSL")

The International Aerospace Environmental Group™ ("IAEG™") is the owner of the Licensed Material (as defined in Clause 1). The Licensed Material may not be used for any purpose other than that for which it is provided without the express written consent of IAEG™. IAEG™ will accept no liability for any damages from any use of this material including without limitation any direct, indirect, incidental, special and consequential damages, loss of data, income, profit or goodwill, loss of or damage to property or claims of third parties. IAEG™ reserves the right to add to, change or delete its content or any part thereof without notice.

BY DOWNLOADING, COPYING OR OTHERWISE USING THE LICENSED MATERIALS, YOU ACKNOWLEDGE THAT YOU HAVE READ AND UNDERSTAND THIS AGREEMENT, AND ARE BOUND BY ITS TERMS. IF YOU CANNOT OR DO NOT AGREE TO BE BOUND BY THIS AGREEMENT, YOU AGREE NOT TO USE THE LICENSED MATERIALS IN ANY FORM, FOR ANY PURPOSE.

AD-DSL Substance Groups

Groups have been established for substances on the AD-DSL to allow requesting companies the flexibility in the selection of substances used in supplier materials declarations. The use of groups allows users of the AD-DSL to limit required supplier reporting to a smaller subset of the AD-DSL, according to the requestor's need for information. Three groupings for the substances on the AD-DSL have been established:

Group 1:

Substances prohibited for presence/use in mixtures/materials or articles by regulatory requirements or that have been identified for prohibition or that will require authorization for its continued use.

Group 2:

Substances for which a regulatory requirement requires the disclosure, tracking or specific labelling (in addition to what is required by regulatory chemical hazard communication requirements) if present in supplied mixtures/materials or articles.

Group 3:

Substances that are regulated and have the potential to be prohibited or restricted or to likely have associated required disclosure requirements in the future.
