Introduction to IAEG

International Aerospace Environmental Group

June 2023
IAEG was founded in 2011 with a vision to advance innovative environmental solutions for the aerospace and defence industry. Starting with 11 Founding members, now at 50 members, this collaboration forum is designed to address pertinent environmental issues that all member companies face. As we have grown, we have found tremendous value and synergy in working these non-proprietary issues together, for the betterment of the industry at large.

Bruno Costes | Board Chair
Chair: Bruno COSTES, Airbus
Vice-Chair: Steve SHESTAG, Boeing

Board of Directors
