Best Practices Sharing & Standards Development
More than 800 people share best practices, standards & innovative solutions
WHY JOIN IAEG…?
... TO TACKLE CLIMATE CHANGE (WG3 & WG13)

GHG Emission Reporting Guidance
- Scope 1 & Scope 2
- Scope 3
  - Cat 1 – Purchased Goods & Services
  - Cat 11 – Use of Sold Products

Reporting Tool
- Purchased Goods & Services and Capital Goods
- Fact Sheets and Webinars

Other Sub-Teams (WG3)
- Use of Sold Products-Military
- Science-Based Targeting
- Space Applications

100% SAF Compatibility (WG13)
- Assess compatibility with a focus on “non-drop-in” SAF
- Determine gaps in industry infrastructure readiness to support “non-drop-in” SAF
- Monitor and engage on current efforts to approve the new standard for 100% synthetic “drop-in” SAF

Have a voice in promoting the development of voluntary consensus standards addressing environmental concerns
### WHY JOIN IAEG…?

**… TO CHAMPION CHEMICAL STEWARDSHIP**

Participate in a forum for dialog on industry optional approaches for implementation of environmental requirements
WHY JOIN IAEG…?

... TO FOSTER SUSTAINABILITY AND ENGAGE SUPPLY CHAIN

- ISO 14001: 2015 Implementation Guide
- Multi-Leveled EMS Maturity Framework Based in ISO 14001 for SMEs Suppliers
- Implementation guides

ISO 14001 and EMS Application (WG7)

- Contract with EcoVadis as a Voluntary Reusable ESG Protocol
- Possible discounts for IAEG members
- Score Cards for Customers, Suppliers and Industry
- Industry Effort to Educate and Improve the Global Aerospace Supply Chain on ESG topics
- ESG Global Sectoral assessments

Aerospace Industry ESG Engagement (WG11)

- Inform design choices & Accelerate WayPoint 2050
- Support EPD & align with emerging regulations
- Build consistency & stakeholder confidence

Life Cycle Assessment (WG12)

- Establish industry priorities and identify regulation landscape
- Define calculation methodologies and standards needs
- End-of life management best practice sharing and marketplace development

Circular Economy (WG14)

And more…
MEMBERSHIP ELIGIBILITY DETERMINATION

1. Principally engaged in carrying out design, manufacture or support of civilian or military aerospace original equipment, systems, or structures of aircraft, rotorcraft, satellites and/or space exploration vehicles;

2. Major Supplier earning at least $100 million in annual revenues as a supplier to Aerospace Companies; or

3. Supplier, regardless of the total revenue, having at least 80% of its annual revenue from Aerospace Companies.

MEETINGS AND WAY OF WORKING

- **IAEG Overview and Compliance Training** (Semi-monthly for new member company representatives)
- **Work Groups** (Weekly or Monthly / Remote)
- **All-Members Progress Review** (Monthly / Remote)
- **Executive Committee** (Monthly / Remote)
- **Board** (Quarterly / Remote)

### Spring and Fall Face-to-Face (4 Days each)
- Work Groups – 3 days intensive collaboration
- Best Practices Sessions
- Plenary Session – 1 day with external speakers
- Board and Committee meetings

Last F2F meeting

**DALLAS - USA**

8-12/04/2024

Next F2F meeting

**MADRID - SPAIN**

30-4/09-10/2024
SAVE THE DATE | FALL F2F MEETING
September 30 – October 4, 2024
Madrid, Spain

The world as we know it today is changing rapidly. The decarbonization and digitalization of our sector may induce deep changes to our production methods, in our habits and in our mobility in the future. Many member companies are investing to reduce the environmental impact of industry activities and of products throughout their life cycle. We therefore believe, more than ever, in a sustainable aviation and space industry that is both clean and carbon-neutral. Today we are counting on you, even more than before, to be pioneers of sustainable aviation for a safe and united world.

-- Bruno COSTES | Chairman
