Q1 2023 IAEG chose EcoVadis as its vendor for its voluntary program to monitor and improve the sustainability performance of the trading partners of participating IAEG members in the aerospace and defense industry supply chain.

- Create a voluntary standard and program for members
- Obtain industry sector view insights
- Evidence based assessment process provides the due diligence for duty of care stakeholders
- Mutualize the sustainability ratings of all members in an anonymized shared pool
- Make informed decisions on key improvement areas based on the sector view
- Enable the enrolled trading partners (suppliers) and offer harmonized improvement requests to reduce workload
Suppliers engaged in an SI (Sector Initiative) outperformed the network average by 5.3 points in 2022.

SI members are also 6% more likely to have their invited trading partners become EcoVadis-rated companies.

SI members have access to 7% more primary sustainability data.
